The screenshot shows a web browser window with multiple tabs open. The active tab is 'Jo Spearing is fundraising' on the JustGiving website. The URL is https://www.justgiving.com/Jo-Spearing. The page features a search bar, a 'Start Fundraising' button, and navigation links for Home, Julia, and Menu. Below the navigation is a social sharing section with buttons for Facebook, Twitter, and Email. The main content area is titled 'Jo's Welsh Coast Cycle Part 1' and includes a photo of Jo Spearing with a bicycle. The text describes the event: 'I'm cycling 240 miles from Chester to Aberystwyth for CDG UK because this new charity needs support and wider publicity'. A progress indicator shows 38% of the £500.00 target has been raised, with £190.00 raised from 9 donations. A 'Donate' button is visible. Below the main content is a 'Story' section with text about JustGiving and a 'Raising money for' section featuring the CDG UK logo and a description of the charity. The CDG UK description states: 'Congenital Disorders of Glycosylation (CDG) is an umbrella term for a very rare group of diseases that causes severe disability. There is no known treatment or cure. As the disease is so rare, there are very few children in the UK affected. CDG UK provides a support network and a patient voice.' The bottom of the screenshot shows the Windows taskbar with various application icons and the system clock displaying 11:29 on 29/07/2015.
