

Pf Dulce Quelhas

Centro Hospitalar do Porto, Oporto, Portugal

Dr. Dulce Quelhas received her 6 honor degree in Pharmaceutical Sciences – Biological-Chemistry Analysis from the Faculty of Pharmacy, University of Porto in 1986.

Moreover, she completed her MSc degree in Human Genetics in 1998 at the Faculty of Sciences, University of Porto.

Dr Quelhas has also attended various specialist training courses under the supervision of Prof Jaeken and Prof Matthijs. After completion of her degree she was appointed Assistant at the Instituto de Genética Médica, working in the pre and post natal diagnosis of Peroxisomal Disorders. From 1997 to 2008, Dr. Quelhas developed her work in Inborn Errors of Metabolism diagnostics in the Clinical Biology Laboratory. Since 2012, she has been coordinator of the Congenital Disorders of Glycosylation diagnosis, also in charge of the biochemical post and prenatal diagnosis. In 2014/2015 Dr. Quelhas had a teaching experience in the course of Medical and Laboratorial Genetics at ICBAS (Abel Salazar Biomedical Sciences Institute).

She hopes to contribute for CDG lives by improving and optimizing its diagnostics. Dr. Quelhas has served in external quality control programs for biochemical genetics (ERNDIM) and has collaborated in student and professional training. Moreover, she has been involved in the organization of scientific meetings and conferences. She was a reviewer for the European Journal of Human Genetics in 2013, 2014 and 2015.

Dr. Quelhas's work has been distinguished with several awards.
